Completing the Programme Amendment Form

1. Process

The Programme Amendment Form should be developed in conjunction with the Programme Specification. All sections of the Programme Amendment Form must be completed.

The Programme Amendment Form will clarify the nature of the proposed amendments, the proposed date of implementation, and the implications of the amendment for students. This form, along with the updated Programme Specification, will enable the amendments to be implemented on the Student Information System.

Programme Amendment Forms and corresponding Programme Specifications should be submitted considered at the School / Institute Learning and Teaching Committee (or equivalent). The completed form must be signed by the Head of School / Institute(s) to denote that the proposal has the support of the responsible School / Institute(s) and submitted to the Academic Secretariat.

The Academic Secretariat will be log and scrutinise all proposals for completeness of information and the appropriateness of the proposed amendment. The Academic Secretariat retains the right to send an incomplete proposal back to the originator for amendment before it is processed.

The following types of programme amendments may require institutional level approval, depending on the level of risk involved. These will be assessed by ARCS on a case-by-case basis, and may be referred for consideration by Taught Programmes Board and, where applicable, Partnerships Board:
- programmes delivered through a collaborative arrangement;
- programmes involving work-based learning or study abroad;
- programmes involving distance learning.
