Programme Outline

The LLM in Competition Law is a unique programme, giving students the chance to study competition law from a national, regional and global perspective and to do so at both theoretical and practical levels. The programme is extremely broad in its scope and it includes 9 courses, in addition to the dissertation option. Some of the courses are devoted to the competition rules of a particular regime (such as the LLM course on EU Competition Law) whilst others focus on specific issues and business phenomenon, principally state aid, mergers and cartels; there are also courses which are procedure-oriented and those which deal with economic analysis in the field of competition law whilst some courses focus on policy. All of the courses are taught by a team of experts.

Aims of the Programme

The LLM in Competition Law programme aims at offering students important knowledge in the field of competition law and policy as well as the necessary tools to develop their skills and expertise in order to prepare these students for life after the LLM, whether as: practitioners in law firms; in-house counsel of business firms; officials working in competition authorities or courts; or academic researchers. The programme seeks to attract (and always in fact attracts) candidates from different backgrounds.
Programme Title: LLM Competition Law

(whether legal or economics practices, academia, enforcement bodies or courts) who come from literally every corner of the globe. The programme aims to produce high quality LLM graduates with strong expertise in competition law and policy who can make an important contribution to the enforcement of competition law, the formulation of competition policy and researching the field within different jurisdictions (whether developed or developing economies) as well as international bodies.

What Will You Be Expected to Achieve?

Upon completion of the programme, candidates will be able to:
* Demonstrate solid understanding of competition law and policy
* Analyse complex situations from factual and legal perspectives
* Understand how competition law is enforced in key jurisdictions
* Compare between different regimes
* Demonstrate an understanding of the role competition law and policy play in a global context
* Appreciate the importance of economic analysis when applying competition law
* Debate the relationship between competition law and other fields, notably intellectual property law from both theoretical and practical perspectives

## What Are the Entry Requirements?

The usual qualification for entry to the LLM programme is a degree in law, or a degree with a substantial law content, of at least 2.1 honours (or equivalent). Law graduates with 2.2 honours who also have other legal qualifications and/or substantial professional legal experience may also qualify.

## How Do We Listen and Act on Your Feedback?

The Staff-Student Liaison Committee provides a formal means of communication and discussion between schools/institutes and its students. The committee consists of student representatives from each year in the school/institute together with appropriate representation from staff within the school/institute. It is designed to respond to the needs of students, as well as act as a forum for discussing programme and module developments. Staff-Student Liaison Committees meet regularly throughout the year.

Each school/institute operates a Learning and Teaching Committee, or equivalent, which advises the School/Institute Director of Taught Programmes on all matters relating to the delivery of taught programmes at school level including monitoring the application of relevant QM policies and reviewing all proposals for module and programme approval and amendment before submission to Taught Programmes Board. Student views are incorporated in the committee's work in a number of ways, such as through student membership, or consideration of student surveys.
Programme Title: LLM Competition Law

All schools/institutes operate an Annual Programme Review of their taught undergraduate and postgraduate provision. APR is a continuous process of reflection and action planning which is owned by those responsible for programme delivery; the main document of reference for this process is the Taught Programmes Action Plan (TPAP) which is the summary of the school/institute’s work throughout the year to monitor academic standards and to improve the student experience. Students’ views are considered in this process through analysis of the NSS and module evaluations.

Academic Support

Students will receive a comprehensive induction. Students will be assisted with the preliminary stages of selecting a research topic, drafting a research proposal, considering their methodology and developing the skills needed to identify and use relevant materials. Lecturers on taught modules shall be available to discuss any concerns students might have with regard to the particular module or its content.

Specific Support for Disabled Students

Queen Mary has a central Disability and Dyslexia Service (DDS) that offers support for all students with disabilities, specific learning difficulties and mental health issues. The DDS supports all Queen Mary students: full-time, part-time, undergraduate, postgraduate, UK and international at all campuses and all sites.

Students can access advice, guidance and support in the following areas:
• Finding out if you have a specific learning difficulty like dyslexia
• Applying for funding through the Disabled Students’ Allowance (DSA)
• Arranging DSA assessments of need
• Special arrangements in examinations
• Accessing loaned equipment (e.g. digital recorders)
• Specialist one-to-one “study skills” tuition
• Ensuring access to course materials in alternative formats (e.g. Braille)
• Providing educational support workers (e.g. note-takers, readers, library assistants)
