Programme Title: BSc Economics and Finance

Programme Specification

Awarding Body/Institution: Queen Mary, University of London
Teaching Institution: Queen Mary, University of London
Name of Final Award and Programme Title: BSc Economics and Finance
Name of Interim Award(s): N/A
Duration of Study / Period of Registration: 3 years
QM Programme Code / UCAS Code(s): LN13
QAA Benchmark Group: Economics
FHEQ Level of Award: Level 6
Programme Accredited by: Chartered Financial Analyst UK
Date Programme Specification Approved: 12 Sep 2012
Responsible School / Institute: School of Economics and Finance

Schools which will also be involved in teaching part of the programme:
School of Business & Management

Institution(s) other than Queen Mary that will provide some teaching for the programme:

Programme Outline

The aims of this degree are to provide the students a thorough training in the economics of finance; the source of finance; the evaluation of financial markets and corporations; the management and measurement of financial risk in a domestic and international environment. This will be done at both a quantitative and analytical level. The programme contains a basic core of general economics, mathematics, and statistics. This leads on to more specialised modules in economics, econometrics, and especially in finance. It provides hands-on experience of using statistical packages and presentation of reports. Graduates of this programme obtain jobs requiring economic and statistical reasoning in diverse areas such as finance, business and government. They may also be suited to further training in economics, finance and econometrics.

Aims of the Programme

To provide a challenging and friendly learning environment in which research of international standing informs and supports effective teaching;
To provide the students the basic tools in making the optimal finance and economic decisions in an environment of economic uncertainty;
To enhance their quantitative skills in the analysis and trading of financial markets;
Programme Title: BSc Economics and Finance

To learn how financial institutions or corporations work;
To evaluate alternative investment strategies of corporations;
To know how to manage investment risk using optimal portfolios or market instruments such as derivatives;
To encourage students to develop the motivation and capacity to manage their own learning, and acquire a range of transferable skills valuable to them in employment or in continued education.

What Will You Be Expected to Achieve?

Students who successfully complete this programme will be able to:

Academic Content:

A1 Demonstrate knowledge and understanding of a core of economic principles and analysis to an appropriate level;
A2 Show some knowledge and understanding of the application of statistical methods to economic data, using econometric software where appropriate;
A3 Apply economic reasoning to a range of policy issues;
A4 Show knowledge and understanding of a number of specialised areas in economics and finance.

Disciplinary Skills - able to:

B1 Solve problems, through conceptualisation and analysis;
B2 Collaborate, through working co-operatively;
B3 Communicate, through oral and written presentations;
B4 Use IT skills (internet to retrieve information; email to share information; word processing and spreadsheets to store, analyse and present information);
B5 Manage time and work cooperatively within a community;
B6 Achieve objectives by the relevant deadlines.

Attributes:

C1 acquire and apply knowledge in a rigorous way;
C2 connect information and ideas within their field of study;
C3 use writing for learning and reflection;
C4 adapt their understanding to new and unfamiliar settings;

How Will You Learn?

The learning outcomes for the programme are delivered by a range of modules across the programme. Students on economics programmes take a similar core in years one and two, enabling them to specialise in year three and adapt to different programmes as their interests change. Teaching and learning is mainly via lectures and seminars. Teaching and learning strategies vary from module to module. Core subject specific skills are introduced and developed via ECN113 Principles of Economics and then via ECN106 Macroeconomics 1, ECN206 Macroeconomics 2 and ECN205 Money and Banking (for the macroeconomics strand); and ECN111 Microeconomics 1, ECN214 Games and strategies and ECN211 Microeconomics 2 (for the microeconomics strand). Mathematical competence is developed via the ECN114 Mathematical Methods in Economics and Business module, while statistical competence is developed via ECN112 Spreadsheets and Data in Economics, ECN121 Statistical Methods in Economics, ECN224 Econometrics 1 and ECN225 Econometrics 2.

An intensive training in finance is achieved thanks to a rich stream of modules which include BUS021 Financial Accounting, ECN222 Financial Markets and Institutions, ECN226 Capital Markets I, ECN371 Corporate Finance I, ECN372 Corporate Finance 2, ECN358 Futures and Options.

Other modules in the programme also develop and assess core skills through lectures, and, seminars.

How Will You Be Assessed?

Assessment is by a variety of methods including formal examinations, in-class tests, coursework of various forms, presentations, independent dissertation. Most modules will have two methods of assessment. Please refer to the academic regulations of college for assessment regulations:
(http://www.arcs.qmul.ac.uk/policy_zone/index.html)

How is the Programme Structured?

In each year, students must take at least 6 out of their 8 modules in Economics and Finance. Students must take all modules listed in the LN13 designated pathway. Among these compulsory modules, there is a subset of core modules (marked with *). Core modules must be passed. In order to obtain a LN13 Economics and Finance degree, a student may fail at most one core module. Students who fail more than one core module will get a "Economic studies" degree provided the other requirements for such degree are satisfied.

In each of the first two years, students must take the eight modules specified in the designated pathway below.

In Year 3, students must take the three modules specified in the designated pathway below. Moreover, the diet of Year 3 modules must include a minimum of six modules from the list of Economics and Finance level 6 modules. The remaining two modules can be chosen from anywhere in the College and must be at level 5 or 6.

**What Are the Entry Requirements?**

Our requirement for entry is AAB at A-level including grade B or above in Mathematics.

**How Do We Listen and Act on Your Feedback?**

The Staff-Student Liaison Committee (SSLC) provides a formal means of communication and discussion between a School and its students. The committee consists of student representatives from each year in the School together with appropriate representation from staff within the School. It is designed to respond to the needs of students, as well as act as a forum for discussing programme and module developments. Staff-Student Liaison Committees meet regularly throughout the year.

The Teaching and Curriculum Development (TCD) committee deals with all matters relating to the delivery of taught programmes at School level including monitoring the application of relevant QM policies and reviewing all proposals for module and programme approval and amendment before submission to Taught Programmes Board. Student views are incorporated in this Committee’s work in a number of ways, such as through the SSLC, or consideration of module evaluation questionnaires.

All Schools operate an Annual Programme Review of their taught undergraduate and postgraduate provision. The process is normally organised at a School-level basis with the Head of School, or equivalent, responsible for updating the School’s Taught Programmes Action Plan. Students’ views are considered in this process through analysis of the NSS and module evaluations.
Programme Title: BSc Economics and Finance

There are four subject based Teaching Review Groups (TRGs) (covering microeconomics, macroeconomics, quantitative, and finance), membership of which includes all those who teach within that area, and these carry primary responsibility for monitoring modules, reviewing their effectiveness, and considering new developments. The TCD as a whole has responsibility for reviewing the overall structure of the UG degree programmes, ensuring their coherence and considering more general developments. It also considers any wider implications of subject specific recommendations of the TRGs. TRGs will keep learning outcomes under review, and develop the methods of assessment of these outcomes.

Every Semester, the School administers two Teaching Evaluation Questionnaires for each module. This allows both Module convenors and the School to collect important information and feedback from students, and to make any relevant adjustments promptly, if necessary. The TEQs are also discussed in the TCD committee and used to award the annual School prizes for best Lecturer and Class Teachers.

Academic Support

Each student is allocated a personal academic adviser, who approves option choices and provides initial support with any problems. Personal tuition is provided primarily through tutorial classes and visits to module organisers during their office hours, which are advertised on office doors and on the web. Programme induction for new students begins during the enrolment period and extends into the first semester; it includes a series of presentations organised by the Senior Tutor. All teaching is overseen by the Teaching Review Groups and by the Teaching and Curriculum Development committee, which includes the Programme Directors and is chaired by the Director of Taught Programmes. Both individual modules and programmes are monitored continuously and reviewed every year by the Teaching Review Groups and by the Teaching and Curriculum Development committee.

Programme-specific Rules and Facts

N/A

Specific Support for Disabled Students

Queen Mary has a central Disability and Dyslexia Service (DDS) that offers support for all students with disabilities, specific learning difficulties and mental health issues. The DDS supports all Queen Mary students: full-time, part-time, undergraduate, postgraduate, UK and international at all campuses and all sites.

Students can access advice, guidance and support in the following areas:
- Finding out if you have a specific learning difficulty like dyslexia
- Applying for funding through the Disabled Students' Allowance (DSA)
- Arranging DSA assessments of need
- Special arrangements in examinations
- Accessing loaned equipment (e.g. digital recorders)
- Specialist one-to-one "study skills" tuition
- Ensuring access to course materials in alternative formats (e.g. Braille)
- Providing educational support workers (e.g. note-takers, readers, library assistants)
- Mentoring support for students with mental health issues and conditions on the autistic spectrum.

Links With Employers, Placement Opportunities and Transferable Skills

Connections to the real world examples and case studies are regularly embedded within all modules and allow students to develop analytical and critical skills highly regarded by employers. The academic programme is complemented by an extracurricular set of careers workshops aimed at maximising the students' opportunities to secure, progressively, places on
Programme Title: BSc Economics and Finance

Insight weeks (year 1), internships (year 2) and eventually long term employment at the end of their studies. Employability skills are also developed by embedding a CV and career workshop in the first year ECN114 module in order to prompt year 1 students into focusing on developing employability skills throughout their stay at University. Social networking sites such as LinkedIn support the School’s employability strategy as well as the support provided by an extended alumni network. The partnership with CFA UK (Chartered Financial Analyst UK) allows graduates from this degree to register for the IMC (Investment Management Certificate) which is a highly sought qualification in the finance industry.

Graduates of the programme have an excellent record in gaining employment. First destination statistics typically suggest around 65% going directly into employment within six months of graduation and another 25% going into postgraduate study. Curriculum development is informed by research active staff, some of whom also work for major employers of economics graduates (such as the Bank of England and the Treasury).

Programme Specification Approval

| Person completing Programme Specification | Dr R. Veneziani, Director of Undergraduate Studies |
| Person responsible for management of programme | Dr R. Veneziani, Director of Undergraduate Studies |
